14	Truss pods
1	Tait Navigator system
4	Barco 40K projectors
4	Barco 26K projectors

#### TOUR NOTES:

Maroon 5's V tour, which began Feb. 16, 2015 in Dallas, ran through a series of North American dates through April 6. The European leg (with a June 6 stopover in Morocco) ran from May 24 through June 17. The band then returned to the U.S. for two shows in August before embarking for Asia and Australia from Sept. 2 to Oct. 4. After more shows in Los Angeles and Las Vegas toward year's end, the band will continue touring well into 2016. The shows support "V" — the band's fifth studio album.
